# **Please! Do Not Lend Your CITY DIRECTORY**

## **IT COSTS YOU MONEY Every Time It is Loaned**

The practice of lending your City Directory, in a great measure, is responsible for the increasing cost of Directory Service.

The reason is:—

There is a definite cost involved in the making of the Directory of Your City.

This cost must be absorbed by the subscribers—be they one—or be they 1,000.

If there was but One Subscriber to the City Directory—the One Subscriber would of necessity have to absorb The Whole Cost.

If there were 1,000 Subscribers—each one would have to absorb 1/1,000 Part of the Whole Cost.

From which it is obvious that the Greater the number of subscribers—the Lesser the cost to each.

Every time you loan your City Directory the Less Necessity there is for the Borrower to subscribe for the Service.

More Borrowers result in Fewer Subscribers, which means Increased Cost.

The Regina Directory covers considerable territory beyond but tributary to the city limits, which is canvassed in order that the names of all people employed or who purchase in Regina may be obtained.

## ADVERTISING REGINA

An important function of the Directory is to set forth the characteristics and advantages of the city as a place of residence, as a business location, as an industrial site, and as an educational centre. The Directory acts as a mirror, reflecting all that is noteworthy in the city in the above respects. In order to spread this information regarding the city broadcast over the country, the publishers have placed copies of this issue of the Directory in the directory libraries, where they are readily available for reference use by the public. There they serve as perpetual advertisements for business men the country over realize that the City Directory represents the community as it really is.

The publishers take this opportunity of thanking the citizens for valuable assistance rendered in the way of furnishing information concerning themselves, their friends and their business interests for this Directory, and also the public-spirited and progressive business and professional men for support given in the way of patronage.

Respectfully,

The Publishers,

September, 1958.

# Regina

(By Courtesy The Regina Chamber of Commerce)

Chief Sitting Bull made the first recorded visit to the present site of Regina when he arrived there in 1881 on his way to Wood Mountain where the Sioux made their head-quarters while seeking refuge in Canada after the Custer Battle on the Little Big Horn in Montana. The locality had long been known to the natives as "Heap O' Bones," owing to the fact that a great pile of buffalo bones garnished the low hills nearby. The first settlers called the place "Pile O' Bones," and this name appeared in official documents. The name, "Wascana," given to the creek running through the area is a corruption of the Cree word for Pile O' Bones.

It was intended to name the place Victoria, in honour of the Queen, but that name had already been bestowed on the Capital of British Columbia. The matter was referred to Princess Louise, the daughter of Queen Victoria, whose husband

Aerial View of Regina

was then Governor General of Canada, and she selected the name "Regina." The city was named as the first train arrived at nine o'clock, August 23rd, 1882. A tent settlement had sprung up in the spring of that year.

Regina was incorporated as a City in 1903, but the little community had already been the seat of Government of the North West Territories for twenty years. It became the Provincial Capital when Saskatchewan was formed in 1905.

At the time of its incorporation Regina had a population of 3,000. Today it has a population conservatively estimated at 86,000. While not what might be called a large city, it is the fourteenth largest of all Canadian Cities. It may seem small for a Capital, but in Western Canada a city of 50,000 or more is often of greater significance from the point of view of commerce and distribution of goods than a city of several times the population in older countries.

Regina is the financial centre of the Province and it holds an important place in the life of Saskatchewan by virtue of the fact that it is the Capital and by the commercial and industrial development which has taken place within it.

The Legislative Buildings are among the most stately and beautiful in Canada. They are situated on the banks of Wascana Lake and surrounded by spacious grounds which have been beautifully developed and landscaped. The building itself is regarded as an ideal structure for legislative work. It was first begun in 1908 and cost in the neighborhood of \$3,000,000.00.

Regina contains Churches of many denominations and is the seat of the Anglican Diocese of Qu'Appelle and of the Roman Catholic Archdiocese of Regina.

Regina is one of the best paved cities in Canada for its size. It has approximately 75 miles of paved streets, over 155 miles of graded, oiled and gravelled streets. It has 169 miles of concrete, and 50 miles of plank sidewalks.

The City has 154 miles of domestic and 128 miles of storm sewer and 149 miles of watermains. There are two trunk sewers, a sewage disposal works and an incinerator for disposal of garbage.

A modern fire department is maintained by the City with fire stations, a force of 134 well trained firemen, and fully equipped with modern fire fighting apparatus.

Because of its natural attractions and the improvements which its people have made to it in the course of its short history, Regina is a very popular tourist and convention centre. Hotel accommodation is suitable for small and large gatherings and many thousands annually take advantage of its splendid facilities.

**Farm Scene near Regina**

#### **AGRICULTURE**

Surrounding Regina is the finest grain growing district in the world. Saskatchewan is the greatest grain growing province in the Dominion and produces annually one half of the Canadian hard wheat crop. As producer of quality hard wheat Saskatchewan leads the world, having won the world's prize eleven times during the past sixteen years.

While Saskatchewan has always been considered the Premier Grain Growing Province in the Dominion there is abundant evidence that she will, in the not distant future, occupy an equally outstanding position in the realm of livestock. At the Royal Winter Fair, Toronto, and the International Exposition, Chicago, the high quality of our Saskatchewan livestock has been demonstrated over a long period of years.

The Airport area now comprises 1197 acres.

There is a very substantial administration building and control tower at the airport and it is particularly well supplied with taxi strips capable of handling any weight.

**Regina Airport**

Regina is connected with the Transcontinental line of the Trans-Canada Airlines and is the southern terminal of the Canadian Pacific Airline which provides a local service to a number of Saskatchewan Cities.

## CENTRE FOR THE TOURIST TREK

Not only does the "Queen City of the Plains" have much of interest, beauty and historical value to give the visitor, but it offers the nearest centre from which roads lead off to the wonderland of Saskatchewan, into the hills, the lakes, by tree-lined roads, into the glory of the pine-clad north.

To reach this city of the plains, and Capital of the Province, you travel through a fascinating country. A land of thrilling spaciousness, a boundless, rolling plain of fertile soil and far stretched fields of waving grain, the land of appealing beauty, of long days of sunshine, glorious colorful sunsets, clear air—a land that holds you in its spell and calls you back when you are gone.

On the southern shore of Lake Wascana are the magnificent grounds and buildings of the Provincial Government. Visitors are always welcome and can visit the library and reading rooms during the day.

In the library will be found many relics of great historical value, chief of which is the Confederation Table. Around this massive board sat Fathers of Confederation who brought the scattered parts of the settled East into the unity which today, as the Dominion of Canada, holds a place of high reward among all countries of the world.

One should not fail to visit the beautiful new building of Natural History Museum, College and Albert. Here, in lifelike form, can be seen the birds and animals that make their home upon the prairies.

Recreational and entertainment facilities afford a varied selection for pleasure under ideal surroundings, and short distances take the visitor to cooling sandy beaches on lakes in the historical Qu'Appelle Valley and Last Mountain Lake.

### Street and Avenue Directory

### 1958

In the following list the named streets are arranged in alphabetical order, followed by the numbered streets in numerical order, the intersecting streets being shown. The number of each building on the street is given in numerical order, and opposite the number is placed the name of the occupants or houseowner or tenant. In the business blocks containing offices the occupants are shown by room numbers where practicable, in apartment homes the number denotes the number of the apartment. The profession or business of individuals or firms is given only at their respective places of business; to find occupations of others refer to Alphabetical List of Names.

Where the odd and even numbers on an Avenue or Street are separated, the south side (odd numbers) on Avenues will appear first and the east side (odd numbers) will appear first on Streets.

The symbol \* following a householder's name indicates that we have received information during the canvass that the house is owned by some member of the family, but as the publisher cannot and does not guarantee the correctness of the information furnished, nor the complete absence of mistakes no responsibility for errors can be or is assumed, nor can the publisher furnish further information than that shown.

The symbol Δ also following names denotes houses having telephones.

(This section includes some listings reading "Occupied" or "Vacant". In each case the Publishers tried diligently, by various means, to obtain the information from the occupants but were unsuccessful. First two personal calls were made by an enumerator; next, a post card was mailed and the telephone used when possible.)

# **Please! Do Not Lend Your CITY DIRECTORY**

## **IT COSTS YOU MONEY Every Time It is Loaned**

The practice of lending your City Directory, in a great measure, is responsible for the increasing cost of Directory Service.

The reason is:—

There is a definite cost involved in the making of the Directory of Your City.

This cost must be absorbed by the subscribers—be they one—or be they 1,000.

If there was but One Subscriber to the City Directory—the One Subscriber would of necessity have to absorb The Whole Cost.

If there were 1,000 Subscribers—each one would have to absorb 1/1,000 Part of the Whole Cost.

From which it is obvious that the Greater the number of subscribers—the Lesser the cost to each.

Every time you loan your City Directory the Less Necessity there is for the Borrower to subscribe for the Service.

More Borrowers result in Fewer Subscribers, which means Increased Cost.

**HENDERSON DIRECTORIES LTD.**

**More than  
ninety per cent. of  
all advertising mediums  
are discarded before  
they're a year old**

---

---

After the new ones come out  
your advertisement in the  
directory is still good, for  
old directories are seldom  
discarded while they hold  
together. Years later many  
of these directories will still  
be in active use. Your adver-  
tisement is still in service

**Do you want LONG-LIVED advertising?**
